Winter/Spring 2019

## Singing in the rain

### The Christmas Sing-a-long

It rained! Fortunately, many residents and their families were undeterred, donned their wellies, waterproofs and brollies and came along to sing. The band were booked and it was too late to cancel. Luckily the rain did stop quite quickly so the song sheets didn't become too soggy and all those attended had a good evening. Father Christmas came along to hand out some presents to the children while the adults enjoyed the mulled wine and mince pies.

The band were under cover

**FASHION SHOW  
ON MARCH 9TH**

**CANCELLED**

## Footpath Reopens

After more than 18 months of being closed this popular footpath reopened in January. This was the result after much tenacity by OGRA with WCC, until it was clear the matter would not be dropped; work was carried out to make repairs and the temporary closure notice was removed. It is hoped that the path will be kept in good order and that any residents whose property borders the path can please check that trees and shrubs in their gardens do not spread or encroach onto this right of way.

## Keeping Oversley Tidy

Oversley Green is a delightful place to live and it's beginning to look more colourful with the daffodils in bloom. Just a gentle reminder to please encourage family, friends and visitors to take litter home or use bins in hamlet and pick up your dog mess, especially from pavements and fields bordering the rivers. However, I'm probably preaching (kindly) to the converted! Also, the telephone kiosk library is been piled high on the shelves again or books left on the floor. If there is no room, please take to a charity shop.

### Christmas Tree shredding

Once again the committee organised a Christmas tree shredding service at the beginning of January for the 3rd year running. A record breaking 30 trees were brought along.
