

**A MEETING OF ALCESTER TOWN COUNCIL CLIMATE Change
Working Group WAS HELD ON
Tuesday 19th September 2023 AT 6.30pm
At The Eric Payne Community Centre**

1) Present

Cllr Alison Leask, Cllr Kathrin Foster, Cllr Mark Cargill, Elizabeth Lake

2) Apologies / Welcome and Introduction

Cllr Clive Neal-Sturgess, Cllr Emma Randall

3) Action Plan

We will share the various topics to identify actions in the areas of biodiversity, Flooding, Waste management, transport etc. There is a tab in the spreadsheet for each topic in the attached link for you to populate and then for us to share and discuss/amend/follow up.

The following was suggested:

Biodiversity: Liz / Erick

Flooding: Clive / Mark

Waste management / Recycling: ?

Transport: Alison

Community engagement: Emma

Energy: Kathrin

Planning: ?

Ideally, we should have at least 2 people working on each. Not everyone from the working group has chosen/been allocated. Please let us know which topic you want to contribute to. I hope we will have a basis to work on at our next meeting on 17th October. I would like to add that the budget for the following year will be set in November/December, we will need to have some actions identified to put an amount forward to be considered.

4) Warm Hub Event

We also discussed to organise an event in November to provide advice to residents - ie How to keep warm this Winter. This will take considerable amount of time to organise and invite organisations that can support the event. I would suggest a Saturday afternoon, to hopefully make it accessible to as many as possible. I am attaching the document listing the organisations that were present at the event last year. I was not able to attend that event, sadly. If you attended it, please take a look and let us know which organisers we should invite again? Possible dates are 4th / 11th / 18th or 25th November. Are we aware of any other events taking place that it would clash with. Perhaps we could even find some sponsors?

5) Future Dates

Next meeting 17th October 2023, 6:30pm
